

CloudMail

Hosted Exchange for Businesses of all Sizes

Mail

CloudMail is RapidScale's multi-tenant and dedicated Hosted Exchange offering. Our Hosted Exchange solution delivers on the capabilities demanded by mobile workforces. Access your business email, calendar and contacts on your PC, smartphone and Web browser so they can go where you go. We guarantee 100% uptime and provide 24x7x365 US-based support for our clients.

Anytime Email

RapidScale's CloudMail provides secure, cloud-based Hosted Exchange solutions to businesses of all sizes. Access email from any device, anywhere in the world.

Customized Solution

With tons of add-ons, CloudMail can provide businesses with customized solutions such as anti-spam and anti-virus, compliance, and secure messaging.

Active Directory

CloudMail can fully integrate with existing Active Directory configurations to provide a simple and synchronized migration to your cloud solution.

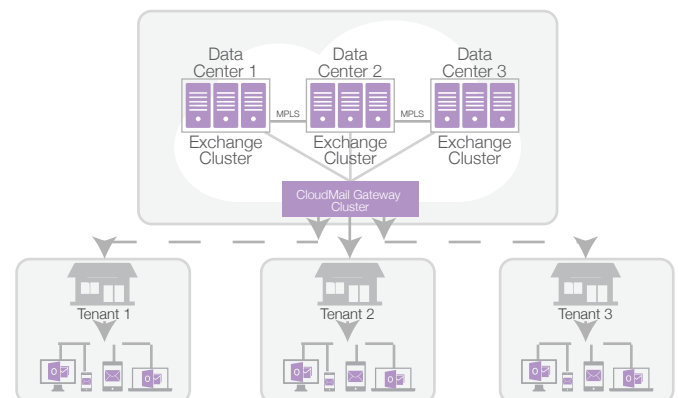

Collaboration

Enhanced collaboration makes it simple for teams to share calendars or complete scheduling all through Outlook, Web-based Exchange, or any other email client.

Features

- Benefit from the latest version of Microsoft Exchange
- Automatic updates with ActiveSync across all devices
- Built-in integrated email archiving, retention and discovery capabilities that save costs and simplify the process of preserving business communications
- 50GB per mailbox

Lower Costs

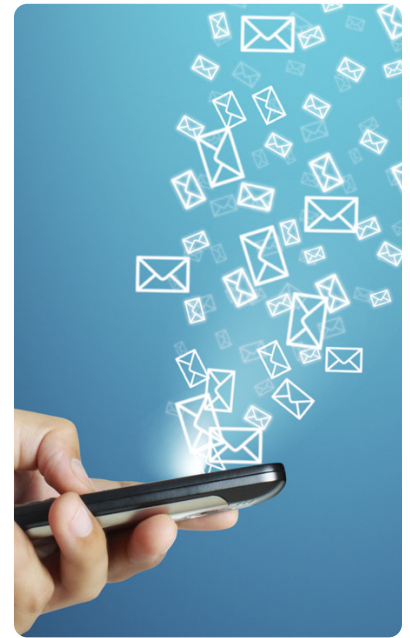

With CloudMail, our goal is to remove the budgeting burden from clients and enhance the end-user experience. At an affordable per-user cost, your organization can benefit from the latest version of Microsoft Exchange and stay up to date with technology and licensing. Plus, with 50GB per mailbox, your employees will no longer have issues with mailboxes filling up and the need to purchase additional storage space.

Secure

CloudMail is built on a secure and durable technology platform with industry-recognized certifications and audits. Exchange 2013 features automatic encryption at both the channel and message levels to help control access to data and ensure trusted communications both inside and outside the network. Eliminate the risk of single points of failure with an on-premises Exchange solution by moving to CloudMail. Hosted Exchange allows you to benefit from built-in Disaster Recovery and Business Continuity features.

Managed Environment

RapidScale's fully managed CloudMail offering allows businesses to enjoy the benefits of Hosted Exchange without the server management, troubleshooting, device setup, and much more. Managed cloud customers also have access to our 24x7x365 customer support for anytime help.
